GOLFZON DRIVING RANGE

Experience a new kind of Driving Range

Presenting GDR (GOLFZON Driving Range) training simulator. GDR provides fun and realistic golf training, personalized data analysis and review, all within an integrated system.

Incredible Precision

VISION Sensor, VISION Swing Plate and 3 types of VISION mats precisely simulate different shot conditions and slopes to bring you lifelike experiences as if you were actually playing out in the field.

Incredible Analysis

GDR provides easy-to-customize features, which allow you to focus on skills you should improve with your own training and data analysis settings. You can even access your charts, data and swing replays on our website.

Incredible Entertainment

Various setting options in our Driving Range, Challenge Mode, and Mini Rounds play modes provide you with endless training fun.
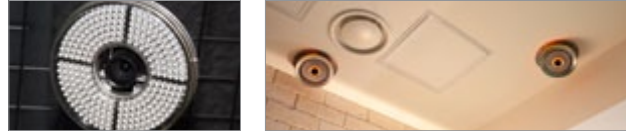

GOLFZON
DRIVING RANGE

GDR **FEATURES**

GDR Main Spec.

VISION Sensor / Flexible ball setting ①

Sensors on two high-speed cameras measure club trajectory, impact, and ball movements to simulate draw, fade, and trouble shots. A ball gets ready anywhere on the VISION mat and VISION sensor automatically recognizes the ball, so you can play without even a second delay.

VISION Swing Plate ②

Equipped with a GOLFZON standard auto tee-up and a wide plate, VISION Swing plate allows shots anywhere on the mat. 360 degrees of directional movement provides lifelike play by physically simulating course slopes from tee-box to putting green.

VISION Mat ③

Play as if you were out in the field with three types of VISION Mats: fairway, rough and bunker.

Smart Auto Tee-up ④

System automatically sets the next ball ready after every shot.

GDR Kiosk ⑤

Easy to operate touch screen display.

GOLFZON
DRIVING RANGE

User-friendly menu system. ⑥

Select from our wide range of different play modes for training fun: Driving Range, Short Games, Challenge Mode, Mini Rounds and Field Practice.
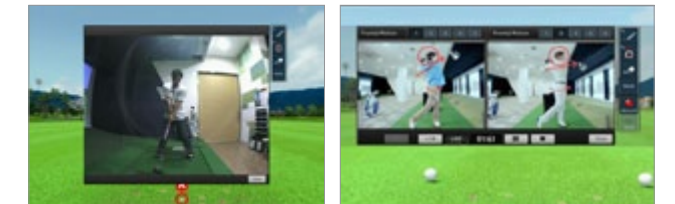

Precise shot analysis and personalized data. ⑦

Precisely and systematically analyzise each play mode to reduce stroke averages in a scientific manner.   *Synched with web for save and review

Swing replay / Compare mode & Line drawing ⑧

Mirror mode shows your swing motions in real-time. Compare mode displays two swing motions simultaneously for comparison. Line Drawing mode allows you to draw lines to mark what you are doing wrong. You can use these modes on your own or with a lesson pro.   *Synched with web for save and review

Card Login System ⑨

Get up on the swing box and touch the card reader with your membership card to instantly login. Your training data is always saved in ℰMy Driving Rangeℰ for you to review and analyze.

※Product and service availability may vary from country to country.

Recommended W X D X H = 3.8 X 5.3 X 3.2 (m)

GDR Main Functions

Driving Range
Practice your putting, iron and driver shots to see various analytical data on your shot distance and direction.

Short Game
Freely choose the distance and terrain within 130m of the green and practice various approach shots to enhance your short game precision.

Challenge
Every time you complete a mission in three challenge modes including Tee Shot and Pitch Shot, get your points and raise your level.

Mini Round
Prepare yourself for actual game play by practicing 3 holes (Par 3, Par 4, Par 5) on 5 actual courses.

Field Practice
Select one among Driver Shot, Second Shot, Approach Shot and Putting, to focus on specific game play. (Selections can overlap)

My Statistics
Using GDR for over 7 hours will generate a 'My Records Icon' where you can check the total amount of time spent on training and review all training records.

Club Test
Check your skill level and habit by taking separate tests for each club.
Detailed training data
(Drive range averages, carry averages, backspin, launch angle, ball speed, etc.)

Lesson
Practice special shots such as fade, draw, and slope shots under the instruction of a lesson pro. You can save your swing replay (up to 1 minute) and upload to the web for replay anytime, anywhere.

Checking Data on the Web
Personal records, shot analysis and swing analysis, and more generated by GDR can be viewed at any time on the web.
* Service availability may vary by country.
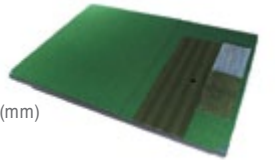

GDR **HARDWARE**

GDR Main Components

VISION Sensor
· Measures club trace, impact and ball movement with high-speed camera sensor

VISION Swing Plate
· A secure and spacious swing plate that automatically reflects the ground elevation of ball postion.
· Size : L x W x H = 1800~2300 x 1300 x 65~260(mm)
· Weight : 60kg / 345kg
· Maximum Load : 150kg / cm^2
· **Optional : Fixed Plate (Right/Both Handed)**
  Swing Plate (Right/Both Handed)

GDR KIOSK or GS System Console
[KIOSK for GDR]
* GDR available with GDR installation only
· 19 inch LCD Touch Screen
· OS: Windows7 Pro Embedded
· Swing Replay Camera, Card Reader included

[GS System Console]
※Available when equipped with GS
· GS System Main & Central Control with Supply Unit
· OS: Genuine MS OS
· Swing Replay Camera, Card Reader for separate purchase

VISION Mat
· Fairway Mat / Rough Mat / Green Bunker Mat to deliver lifelike course play conditions
· Size :
  Fairway : L x W = 800 x 350(mm)
  Rough & Green Bunker : L x W = 400 x 230(mm)

Auto Tee-up
· Automatic ball feed during games for your conveniences (rubber tee is consumable)
· Minimum recommended ceiling height for installation 3.1(m)

Projector
· Brightness : 5,000 Ansi Lumens
· Resolution : 1,024 x 768 (XGA)

※Model and specifications are only recommendations, subject to change.

Screen
· Specially designed for better graphics and more realistic terrain and distance.
· Optional :
  Rope / Velcro / Quiet Rope / Quiet Velcro

※2 screens per order
※Customiz sizes available

Swing Replay Camera
· Swing Replay (recording and auto-save)
· SAMSUNG 41 million pixels, Optical Lens
· Can be installed on GS Console internally or externally

※For GS System Console installation only
※Model and specifications are only recommendations, subject to change.

Card Readers and Membership Card
· Allows auto-login to GS and easy access to other services.

※Card Reader is intergrated into GS System Console hardware
※Regular membership card is applicable for Card Reader.
